TO WHOM IT MAY CONCERN

Brigitte Seum developed a "relationship database" for use in the Faculty of Arts, Business, Informatics and Education. This database has since proven to be very beneficial and useful.

Brigitte was extremely efficient, resourceful and informative while obtaining the necessary requirements for the database. Brigitte quickly understood the outcomes we wanted to achieve and was clear and concise in her recommendations for improving the original database.

The work was completed well within the expected timeframes.

I would definitely recommend Brigitte's expertise in this field and her work ethics.

Yours faithfully
